

## STATE-BY-STATE JOB LOSS: COVID-19 CONTINUES TO DEVASTATE HOTEL INDUSTRY

Oxford Economics – July 2021 Analysis

## Study Showcases Ongoing Impact of COVID-19 on Hotel Industry Employment

The pandemic has been devastating to the hospitality industry workforce, wiping out 10 years of hotel job growth. For every 10 people directly employed on a hotel property, hotels also support an additional 26 jobs in the community, according to a study by Oxford Economics. With hotels expected to end 2021 down nearly 500,000 jobs, based on the pre-pandemic ratio, an additional 1.3 million hotel-supported jobs are in jeopardy this year without additional support from Congress.

Note: These numbers are just direct hotel property jobs, such as housekeepers and front desk agents, and do not include the total job loss from other industries that are supported by the hotel industry, including restaurants, retail, attractions and live events, transportation services, small business vendors and supplies for hotels, among many others.
