

The Optimum Housekeeping Solution

Reduce Costs, Streamline Operations, Enhance Guest Experience

Managing housekeeping teams efficiently and keeping costs under control are critical priorities for any hotel, large or small. Optii Keeper is market leading software that enables hoteliers to increase productivity, automate tasks and manage their housekeeping teams with the click of a button. With our technology, room cleaning turnaround times can be dramatically improved, reducing or eliminating guest queues and wait times.

Industry leaders agree that, once we come out of the crisis, we need to be more nimble and creative in the management of our hotels. At Optii, we are working with our hotel customers to create lean, efficient and adapted working environments:

- Increased room attendant productivity of **10-20%**
- Supervisor efficiency improves by **40%**
- **60%** reduction in manual communication traffic
- Improved cleaning quality
- **40%** reduction in staff turnover
- **80%** reduction in paper usage
- Up to **500%** ROI

*"At Optii, we understand the difficulty our sector is facing and want to play our part to support our customers and share the pain. That's why we offer every participant of the AH&LA's 'Hospitality for Hope' initiative **free use, setup & training** while they provide a temporary home for our first responders and healthcare professionals."*

Katherine Grass, CEO

About Optii

The Optii hotel operations platform allows hotels to reduce costs, streamline operations and improve the guest experience in proven and tangible ways.

We bring together smarter technologies such as artificial intelligence, analytics, messaging and mobility to empower housekeeping and service teams - without requiring capital expenditure and complex integrations.

Optii Keeper

With deep experience in housekeeping labor optimization, Optii Keeper is the market leader in **housekeeping optimization**.

Optii Service

Service Optimization orchestrates your guest and engineering requests, ensuring that expectations are met in the most cost-effective manner.

Optii Chat

Intuitive messaging capabilities and functionality means that teams are able to communicate easily without the need for radios
