“I know firsthand how effective AHLA’s advocacy can be for hotel owners. AHLA’s commitment to engage on legislative issues that protect and strengthen our industry and the AHLA Foundation’s initiatives to advance hotel industry employees and uplift the communities our assets serve are among the many reasons why I remain engaged. My team has had opportunities to participate at every level of the association from committees to events, and I was honored to serve as Chair of the Board. We are proud to support the initiatives of AHLA and encourage all hotel owners to get involved.”

— JUSTIN KNIGHT, CEO, APPLE HOSPITALITY REIT

“My story is one of so many that distinguishes the hotel industry. Small business owners like me represent more than half of our industry and are integral to our communities. AHLA’s commitment to fighting onerous legislation directly impacts my bottom line and allows me to focus on the core tenets of my business like building our workforce and expanding our reach.”

— JYOTI SAROLIA, PRESIDENT & CEO, ELLIS HOSPITALITY GROUP

“We received a first-hand experience of the AHLA’s advocacy in action. The response and attention that we received far exceeded our expectations. You connected us with the appropriate in-house specialist who has demonstrated extraordinary professionalism and strategic determination in the pursuit of a positive resolution that could impact the future of many hotels in this region of interest. While the outcome of the collective actions has not been determined, we are confident that AHLA has our industry’s interests at the core of their concern, and we appreciate and respect the importance of this association’s advocacy for our industry.”
