

Business Summary

Disease Prevention Delivered

Company Overview

CORREA Logistics, a leader in disease prevention supplies; develops and markets innovative medical products and services, to multiple industry sectors.

Our mission is to provide preventable disease solutions that will enhance patient outcomes and improve global healthcare.

CORREA Logistics' comprehensive array of products allow for extensive coverage of client support, regardless of size. Dealing directly with manufacturers, eliminates the extra layer of engagement and thus reduces cost and improves efficiencies that lead to outstanding customer satisfaction in product delivery and service offerings.

Core Competencies

CORREA Logistics is based in California but has operations and staffing in multiple states across the US, from coast to coast.

With a combined experience of 50 years in Pharmaceutical Supply Chain and Logistics, and 22 years in medicine, the CORREA Logistics leadership team is adept at navigating the complexities of the healthcare industry to ascertain their needs well into the future.

Partner suppliers and manufacturers are seasoned and have a track record as leaders in their respective industries. While quality execution to achieve best-in-class results is paramount to our mission, CORREA Logistics' primary focus lies in the success of our clients and partners.
