

A photograph of three people in a professional setting. On the left, a woman with dark hair tied back is smiling and looking towards the right. In the center, a woman with dark hair is clapping her hands. On the right, a man with a beard and dark hair is also smiling and looking towards the right. They are all wearing lanyards. The background is bright and out of focus. Overlaid on the image is a blue hexagonal graphic with a white border, containing the text 'THE SAFETY SHIELD' and 'TO ENSURE A SECURE RETURN TOGETHER'. At the bottom, there is a white banner with black text and a large white banner with black text.

THE SAFETY SHIELD

TO ENSURE A SECURE
RETURN TOGETHER

**We've created an ecosystem
that provides a complete solution
for wellness, safety, and compliance.**

READY TO GET BACK TOGETHER?

SCREENING & COMPLIANCE

The **HB NEXT Clear2** platform simplifies compliance and helps mitigate risk by enabling enterprises to quickly conduct contact tracing and produce electronic compliance records.

The **Clear2** mobile app makes daily screening for multiple users quick and easy. Each user is walked through a simple self-screening process on their mobile device before they leave home. Once the screening is complete, data is logged to create a compliance and documentation audit trail, though no private health information is stored.

- **SELF-HEALTH & WELLNESS SCREENING**
Up-to-Date CDC Guidelines / Integrated Telehealth Monitor Health Status of On-Premise and Off-Premise Employees, Guests, and Vendors
- **VERIFICATION OF COVID-19 VACCINATION CREDENTIALS**
- **VERIFICATION OF COVID-19 TEST RESULTS**
- **LOCATION BASED CONTACT TRACING**
for Outbreak Mitigation using Checkpoint QR Code Technology
- **INTEGRATED THERMAL KIOSK** (optional)
- **HIPAA COMPLIANT**
- **GLOBAL SOLUTION**

Bringing people back together in a safe way, whether into the office or for events and conferences is on the forefront of our minds today. Rather than the need for managing different vendors, the HB NEXT Clear2 solution can integrate with other systems to provide the one stop solution that can track all user activity. This includes badge scanning, health screening, verification of vaccine or test results, scanning and data control for attendees and exhibitors, and the ability to check in and out of event space. The Clear2 Enterprise combines an easy-to-use mobile app with a robust management portal and reporting features.

TRUST & WELLBEING

PEERLESS
PERFORMANCE

PEERLESS PERFORMANCE is a woman-owned culture engineering agency that, for over 30 years, has provided companies with the insights needed to design internal solutions that build trust with purpose. Our complete solution not only protects all of your people but also drives trust and peace of mind when bringing back face-to-face gatherings. By partnering with the best of the best, we offer a holistic wellness approach that is woven directly into your culture.

**THE
SAFETY
SHIELD**

**Sanitize. Prevent.
Protect. Test.**

The Complete Solution in 4 Steps

Introducing the most effective system to disinfect and protect your stores, your employees, and your customers.

COVID-19 RAPID ANTIGEN TEST

Where antibodies are not present, an easy and extremely accurate rapid antigen test at point of care confirms absence of viral infection, protecting others.

COVID-19 RAPID ANTIBODY TEST

Easy point-of-care tests detect in 10 minutes whether vaccines had the desired effect of producing spike protein antibodies, or in the unvaccinated, whether antibodies remain from natural infection. Too often vaccines are ineffective, leaving substantial danger of contagion.

FILTERING & PURIFICATION

Workplace Products

**SAFE T AIR
PURIFICATION
SYSTEM**
powered by
surgically
clean air

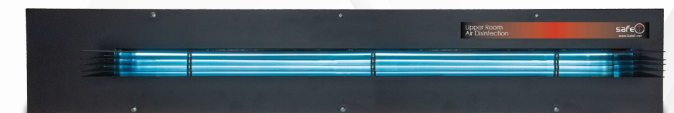

Safe-T SCA-X Freestanding Mobile Unit with stand uses multi-stage air purifying technologies that work together to clean, purify, and re-energize the indoor air. This medical grade system involves a 4-step, 6-stage air purification process that captures ultra-fine particulates. With its sophisticated filtration systems, high volume airflow capacity, and lower sound levels, the SCA-X is the prime solution for open gathering spaces, offices, conference rooms, convention centers, hotel lobbies, and more.

**PORTABLE UV
PHOTOMAX
AIR PURIFIER**

Recognized as effective by the American Society of Heating Refrigerating and Airconditioning Engineers (ASHRAE), the CDC, and the EPA.

**GUARD UV
GERMICIDAL
AIR PURIFIER**

GuardUV Germicidal Ultraviolet Air Purifier destroys airborne pathogens by a controlled region of germicidal UV light. Pathogens are drawn through the UV lamp chamber, exposing them to high-intensity germicidal UV light and then released into the upper air of the room where they are exposed to additional focused UV light.

PREVENTION & PROTECTION

MRS provides a comprehensive defense against pathogen transmission, from testing for infection or vaccine effectiveness, through maintenance and confirmation of surface hygiene.

The Complete Solution in 4 Steps

Introducing the most effective system to disinfect and protect your stores, your employees, and your customers.

COVID-19 RAPID ANTIGEN TEST

Where antibodies are not present, an easy and extremely accurate rapid antigen test at point of care confirms absence of viral infection, protecting others.

COVID-19 RAPID ANTIBODY TEST

Easy point-of-care tests detect in 10 minutes whether vaccines had the desired effect of producing spike protein antibodies, or in the unvaccinated, whether antibodies remain from natural infection. Too often vaccines are ineffective, leaving substantial danger of contagion.

1 SaniMist

Hospital-grade EPA registered disinfecting formula for whole facilities, proven to reduce infection rates. Hi-tech, safe components specifically designed to work with PreventX 24/7.

2 PREVENTX 24/7

EPA registered hi-tech anti-microbial kills microscopic pathogens on hard surfaces and fabrics for 30+ days of continuous protection. Non-toxic, environmentally friendly and safe.

3 PROTECT 4!
HAND SANITIZER

FDA cleared non-alcohol hand sanitizer not only kills 99.9% of pathogens in 15 seconds but also keeps killing for of up to 4 hours. Safe for food handling and won't dry skin.

4 COVID-19 RAPID SURFACE TEST

Easy, inexpensive surface test with a simple swab. As accurate as PCR but requires no reader and gives results in 13 minutes for peace of mind.
