FreshAir
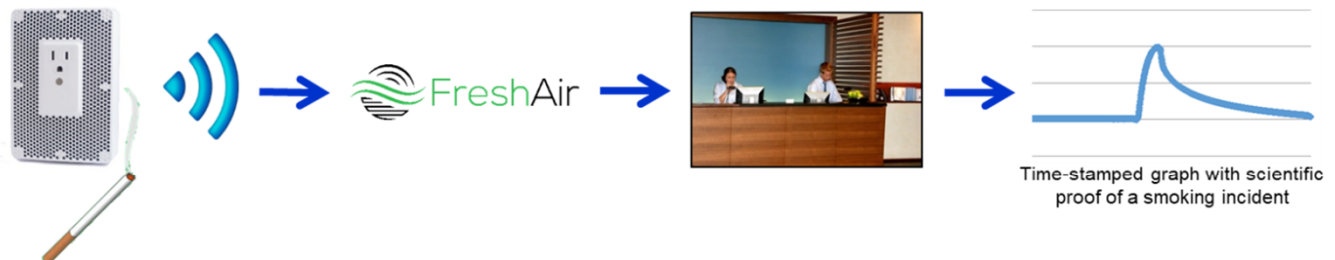

- Smoking sensors for tobacco and marijuana

- Clean Room Check for inspection of cleaning

- Reduced prices for hotels during COVID in 2020

FreshAir Sensor LLC

Improving Lives Through Novel Sensor Technology

Clean Rooms and No Smoking

- FreshAir's patented PolySens sensors are the **only technology** that can specifically detect airborne tobacco smoke and marijuana smoke.

- FreshAir's sensors **detect tobacco smoke or marijuana smoke** in hotel rooms and send an alert signal to FreshAir's cloud monitoring platform.

- FreshAir's **monitoring platform** receives the signal and sends the **smoking alert** to hotel management.

- FreshAir provides **scientific proof of smoking** to ensure collection of cleaning fees.

Time-stamped graph with scientific proof of a smoking incident

- FreshAir's smoking detection devices produce **no visual or audible alarms** in rooms.

- FreshAir is introducing Clean Room Check – a simple way for managers to **verify cleaning inspections of each room**.
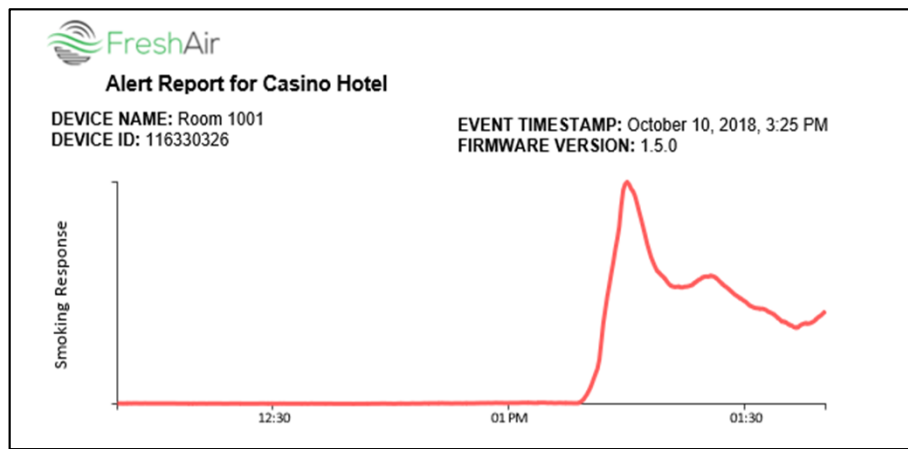

Expectations of Clean Rooms

- **Clean hotel rooms** are especially important now during COVID-19, because customers are more vigilant than ever about cleanliness.

- More than nine out of 10 **(92%) said cleanliness is the most important factor** in selecting hotels.

- **Quality checks** of cleaning are difficult to confirm.

- **87%** of hotel guests **prefer smoke-free** rooms.

- Smoking **odors** indicate a room is not clean.

- Smoking in rooms often goes **unrecorded** until the next guest checks in.

- Cleanliness drives **guest satisfaction**, and guest satisfaction drives hotel profitability, reviews, and return visits.

How Does the FreshAir Clean Room Check System Work?

- ✓ *Room inspector selects room in FreshAir Clean Room Check mobile app.*

- ✓ *Room inspector enters room and inspects.*

- ✓ *When mobile device is in room and within 10 feet of FreshAir detection device, room inspector can confirm cleaning in app.*

- ✓ *Room will then be verified as inspected in FreshAir account.*

- ✓ *Hotel management can run detailed daily reports on inspected rooms.*

FreshAir

Proven Technology and Service

- **Widely deployed** in hotels and apartments.

- Credit card processors frequently will not pay cleaning fees for smoking **without proof**.

- **Scientific proof** of smoking prevents disputes.
