

Leslie's Pool Supplies, Equipment, Service & Repair (Leslie's) and In-The-Swim (ITS) are proud to join the Hospitality for Hope Program and help AHLA and its members provide swimming pool service, equipment and supplies solutions during the COVID 19 pandemic and beyond. Our robust e-commerce platform, combined with a network of over 900 Stores and 17 Commercial Service Centers remain open to provide these essential products and services to you. Our team comprised of 40+ account executives and over 250 technicians can engage directly with you on-site to help you maintain clean and sanitary swimming pool water.

### **RECOMMENDED POOL OPERATION DURING FACILITY TEMPORARY POOL CLOSURE**

We recommend that a property continue to monitor water levels, circulate and sanitize the water. Water that is left unattended can pose major health risks. Proper pool maintenance is necessary to ensure that pool water does not succumb to algae and bacteria growth that can create additional community health challenges such as becoming a breeding ground for E. coli, Malaria, West Nile and Zika viruses. Leslie's and ITS, are committed to providing the essential products and services to meet your property's needs during this very difficult time. Below is additional information regarding day-to-day operations to maintain a healthy and safe pool and spa.

#### COVID-19 OPERATIONAL RESPONSE

While your pool is not open to guests:

- 1) Monitor water levels/verify function of auto fill systems
- 2) Ensure that pool water is circulating
- 3) Ensure chemical feeder systems are functioning and there is sufficient sanitizer to feed
- 4) Monitor pH and Chlorine levels are within acceptable range

At Leslie's and ITS, our top priority is always the health and safety of your hotel associates and guests. We are committed to ensuring that your hotel maintains sanitized pool and spa water as it's an important factor in sustaining public health.
