

# Looking for a Seamless Contactless Check-in Solution?

## Introducing **Samsotech Engage**

### Impress your guests with a premium contactless check-in experience

Never before has there been such a rapid change in how consumers “connect, interact and transact” with business. A contactless solution is now the way to go. Introducing Samsotech Engage, an all in one, multi-platform contactless check-in and check-out solution for hotels. This innovative platform will give your guests more flexibility in how they “connect, interact and transact” with your hotel.

- Seamless Contactless Check-in and Check-out functions
- Minimal person to person touch interactions
- Increase revenue via easy upselling online
- Tracking & handling of Special Requests
- Real-time two-way integration with Hotel PMS
- Collect Guest preferences, Passport/ID capture
- eRegistration Cards, eFolios & Signature capture
- Integration with local authority systems (VICAS)
- Handling Guest Surveys and Feedbacks
- Support for Payment integration via e-commerce\*
- Integration & support for Bluetooth Keys
- Reports & Dashboards

*\*Support for Payment integration is Country specific and may vary. Payments are handled through e-commerce platforms. Bluetooth key support available only for compatible systems. Technical specifications are subject to change. Please contact Samsotech team for more details.*
